9. Only recently we added 2 machines to the list of approved patterns. What is the meaning of the increasing the number.

10. We have two 'Oliver' machines one in the Typ. Sect. & another in the 1st Councillor's Off. and the machines are working satisfactorily. The machines are understood to be in use in other offices also. There are therefore recommended for inclusion in the list of approved patterns.

A larger no of approved patterns will afford a wider field for selection to the purchasing officers.

11. There does not seem to be any inconvenience in recognizing standard machines as such. The field of choice becomes wider thereby, without restricting the Govt. to any particular line of action.
